DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 33, 35, and 105-107 stand rejected under 35 U.S.C. 102(b) as being anticipated by Garland'747.

Garland'747 shows a leg assembly (14), as illustrated in Figure 10, comprising a sleeve (68), a spring base (80) mounted to the sleeve, a slider (72) received in the sleeve and movable relative to the sleeve, a spring (86) positioned between the sleeve and the slider, and a leg (74) received in the slider and adjustably mounted to the slider.

With claim 35, it is best understood that the sleeve has a plurality of slots formed (82) along the vertical wall and a projection (84).

With claim 106, the spring base is fixedly supported on the sleeve.

With claim 107, the spring base (80) is integrally formed with the sleeve (68) (see col. 5, lines 1-2).

With claim 107, the spring base (80) is integrally formed with the sleeve (68) (see col. 5, lines 1-2).

Allowabl Subject Matt r

Claims 34 and 104 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed June 20, 2003 have been fully considered but they are not persuasive.

Remarks

The examiner has reviewed and considered the applicant's comment in the Amendment, filed on June 20, 2003. It's the examiner's position that claims 33, 35, and 105-107 stand rejected under 35 U.S.C. 102(b) as being anticipated by Garland'747. As for claim 33, the applicants have argued that Garland'747 does not show the spring 86 to be "positioned *between* the sleeve 68 and the slider 72". The applicants are directed to Figure 10, where it is shown that the spring 86 appears to be between the sleeve 68 and slider 72. Also, with respect to claim 105, the applicants have argued that Garland'747 does not show the spring 86 to be "positioned between the spring base 80 and the slider 72". The applicants are directed to Figure 10, where it is shown that the spring 86 appears to be between the spring base 80 and slider 72.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
